- ° Competitive Contracting-FY 1988: We have just analyzed the Agency's contracting efforts for FY 1988. We are very pleased to report an increase in competition dollars from 29 percent in FY 87 to 38 percent in FY 88. The increase in competitive procurement actions, Agency-wide, went from 15 percent in FY 87 to 46 percent in FY 88. A detailed memorandum is on its way to you. Part of this substantial increase in competition is due to the method we used in coding competition (we are now aligned with the rest of the government); part of this improvement also resulted from the outstanding cooperation we have received from the entire Agency!
